

## The Attijariwafa bank group confirms its leadership for the «vignette 2022» campaign on motor vehicles and axle tax for the 7th consecutive year

**Casablanca, February 10, 2022** - The Attijariwafa bank group has come out on top in the 2022 payment campaign on the motor vehicle vignette and axle tax, for the 7th consecutive year.

Indeed, the figures as of January 31, 2022, show a Group market share of **42%** for the number and volume of vignettes and axle tax paid, with a total of **1,185,426 vignettes paid** through our distribution channels, compared to 1,058,931 in 2021.

This performance is the result of a significant contribution from digital channels (Attijarinet, Attijari Mobile, Attijari CIB, Attijari Entreprises and «payvignette.ma») with a strong-growth share, and also from the Group's entire physical network (Attijariwafa bank network and its subsidiary Wafacash)—which has more than **3,000** branches—as well as the local network affiliated with the Fawatir brand—which has more than **5,400** points of sale.

Thanks to its mobilization, the Attijariwafa bank group network has once again demonstrated its commitment and mobilization to support national projects, and in particular digital transformation projects.
